

**JUSTCODED**

# **TEST PROJECT**

# PROJECT INFORMATION

Creative agency web template. Create a flexible markup project using SCSS/SASS or LESS in your work. All fonts can be found at <https://fonts.google.com>. Please, note that we need you to use CSS3 or a JS animation for some elements on the page . Also, notice that we need a JS slider. It should work on swipe. Use a validation for the form in the footer.

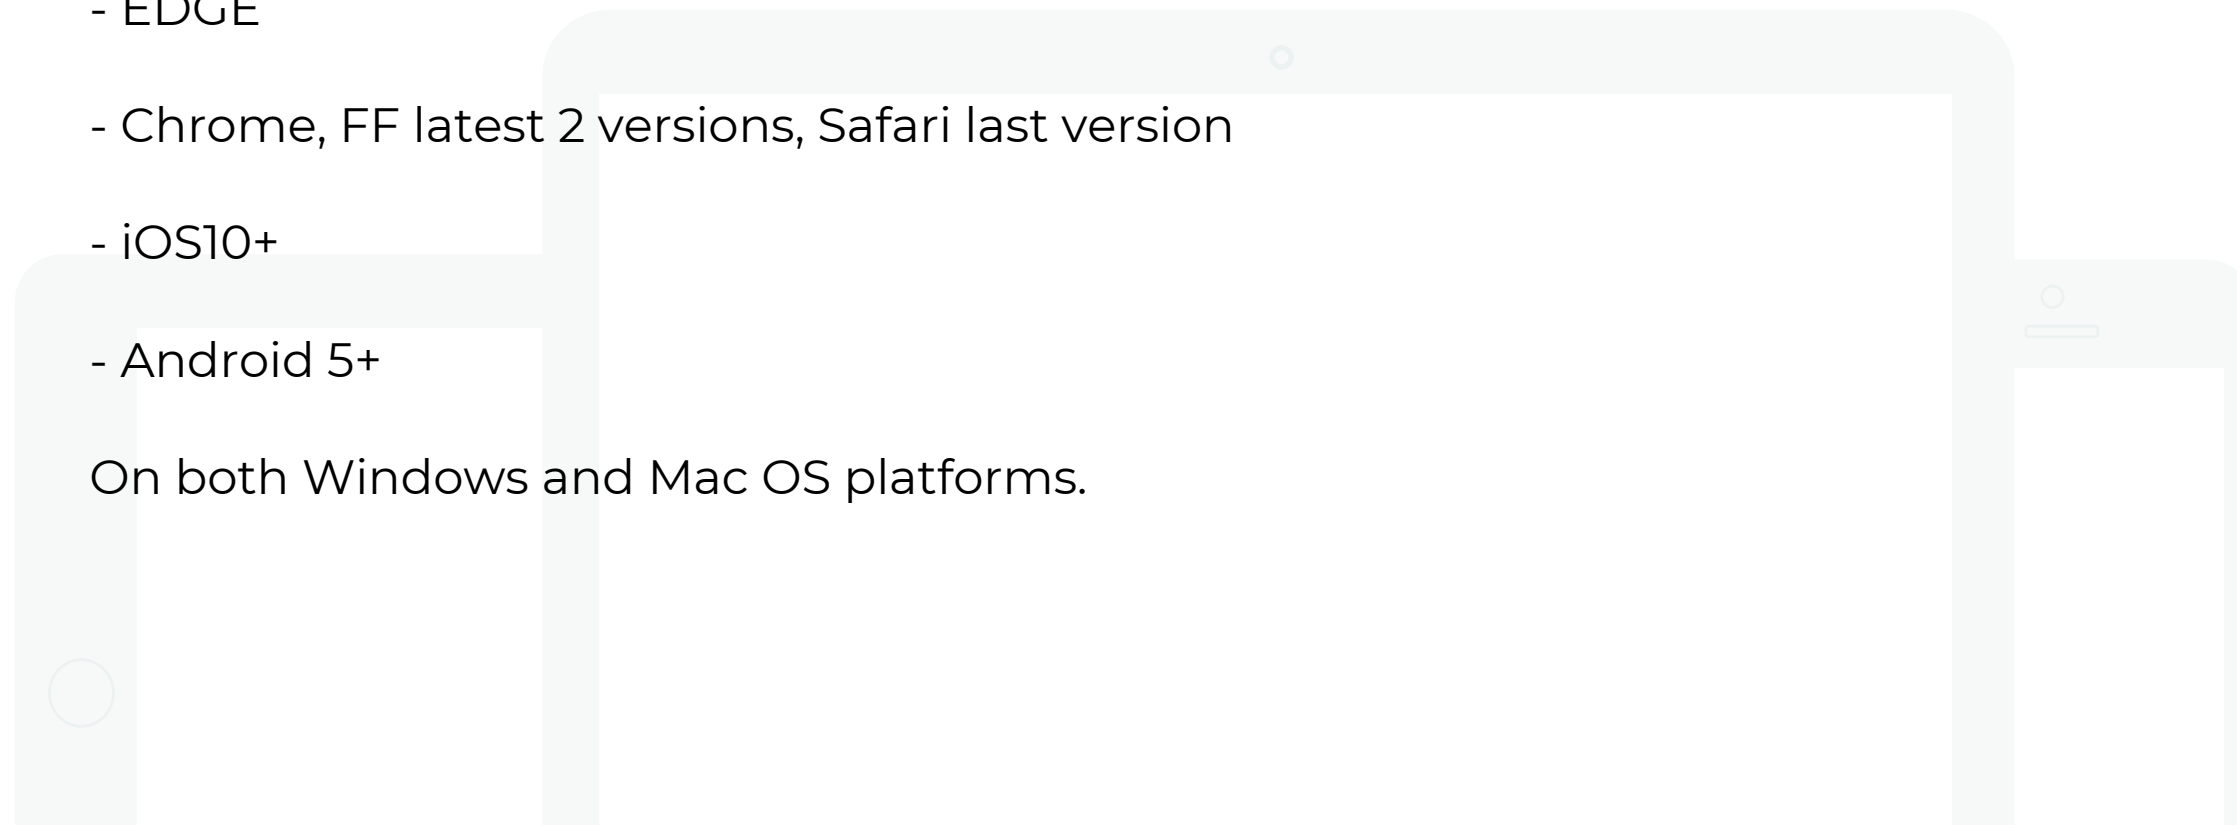

# BROWSER SUPPORT

The code should be according to W3C standards, and displayed correctly in all popular modern browsers.

## **Current Active Support:**

- EDGE
- Chrome, FF latest 2 versions, Safari last version
- iOS10+
- Android 5+

On both Windows and Mac OS platforms.

# PROJECT INPUT

You can find the design here: <http://bit.ly/2Z95srT>. It is very important that it looks good at all resolutions.

- It would be great if everything was perfectly and precisely positioned in whatever environment you are working within (Px-Perfect and Retina Support ).
- Responsive at your discretion.
- Please, use Gulp/Grunt/WebPack toolkit in you project. Also you can use our corporate Web Starter Kit <https://github.com/justcoded/web-starter-kit>.
- The result (Source and Production) can be uploaded to your GitHub repository or you can send us the ZIP by email.

# REQUIREMENTS

- Valid HTML5/CSS3
- Use SCSS/SASS or LESS in your project
- Use Gulp/Grunt/WebPack to compile your SCSS (LESS).
- Use Google fonts.
- Responsive (tablet and mobile version)
- Px-Perfect and support for devices with Retina screens.
- Also, please, add validation to the form in the footer and a simple plugin for the slider.

**THANK YOU**  
**FOR YOUR ATTENTION!**
